

# SoCalGas

Self Generation Incentive Program

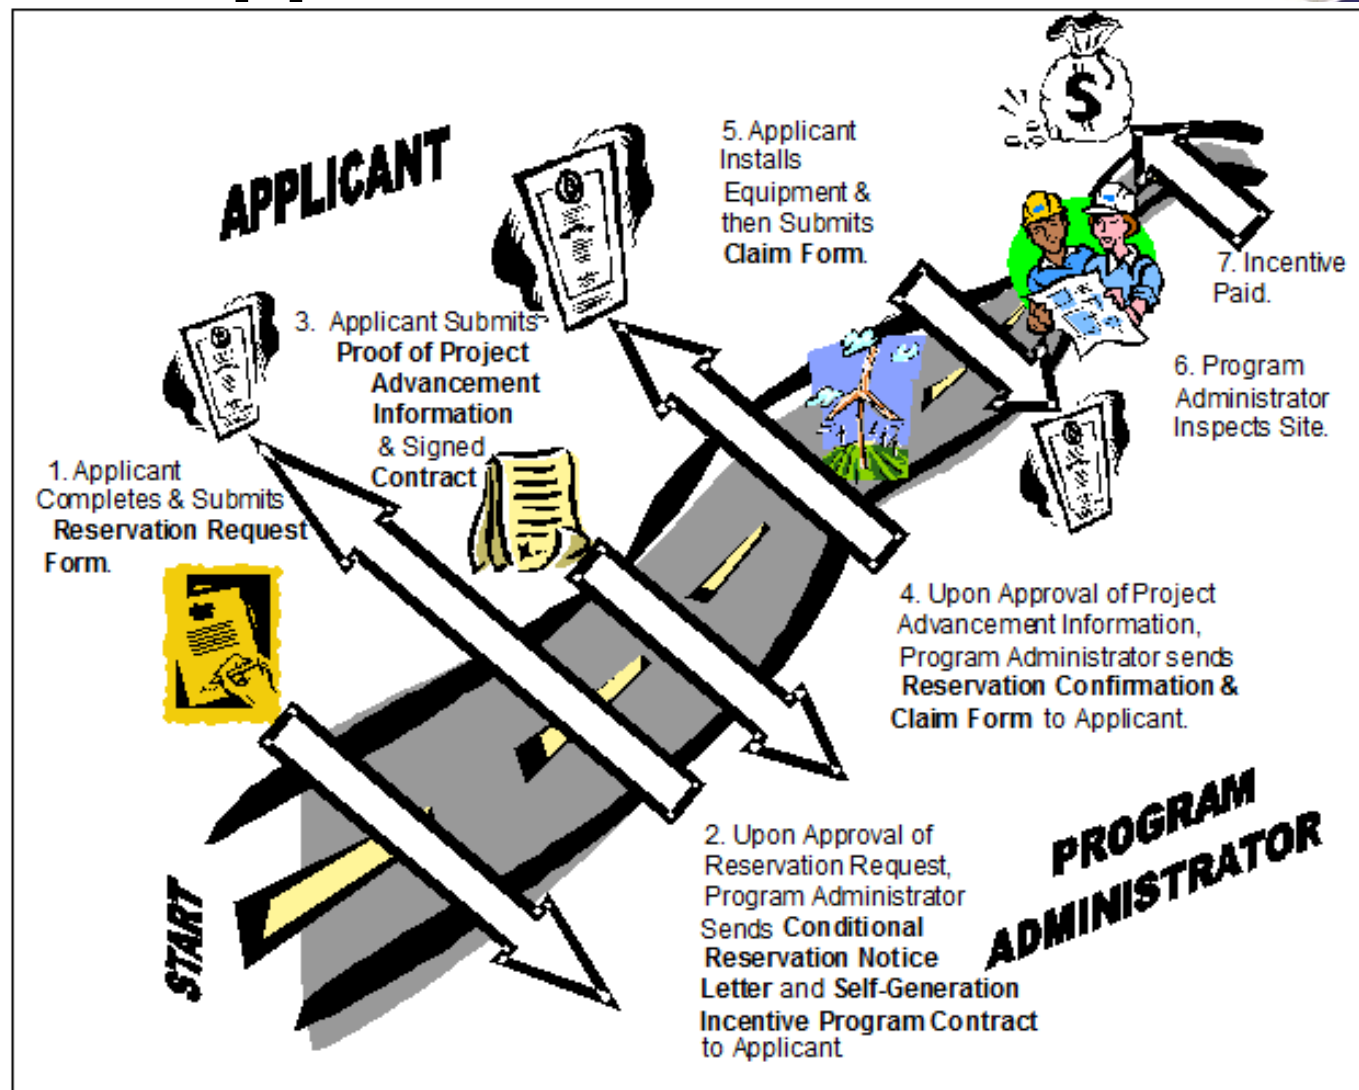

All Party Meeting

March 21, 2016

# Role of the Administrator

- » Per D.01-03-073 The Administrators are responsible for ensuring statewide consistency in program delivery and the following:
  - Fine tuning program design and implementation
  - Modifying program forms and administrative procedures
  - Verifying, or hiring a contractor to verify, installation of systems at customer sites
  - Dispersing payment for installed systems after verification of installation
  - Working with contractors and energy service companies participating in other energy efficiency programs to conduct customer recruiting for program participation
  - Posting program information, including application form, on the internet
  - Performing regulatory reporting functions for the program
  - Contracting with independent evaluator(s).

# Application Process

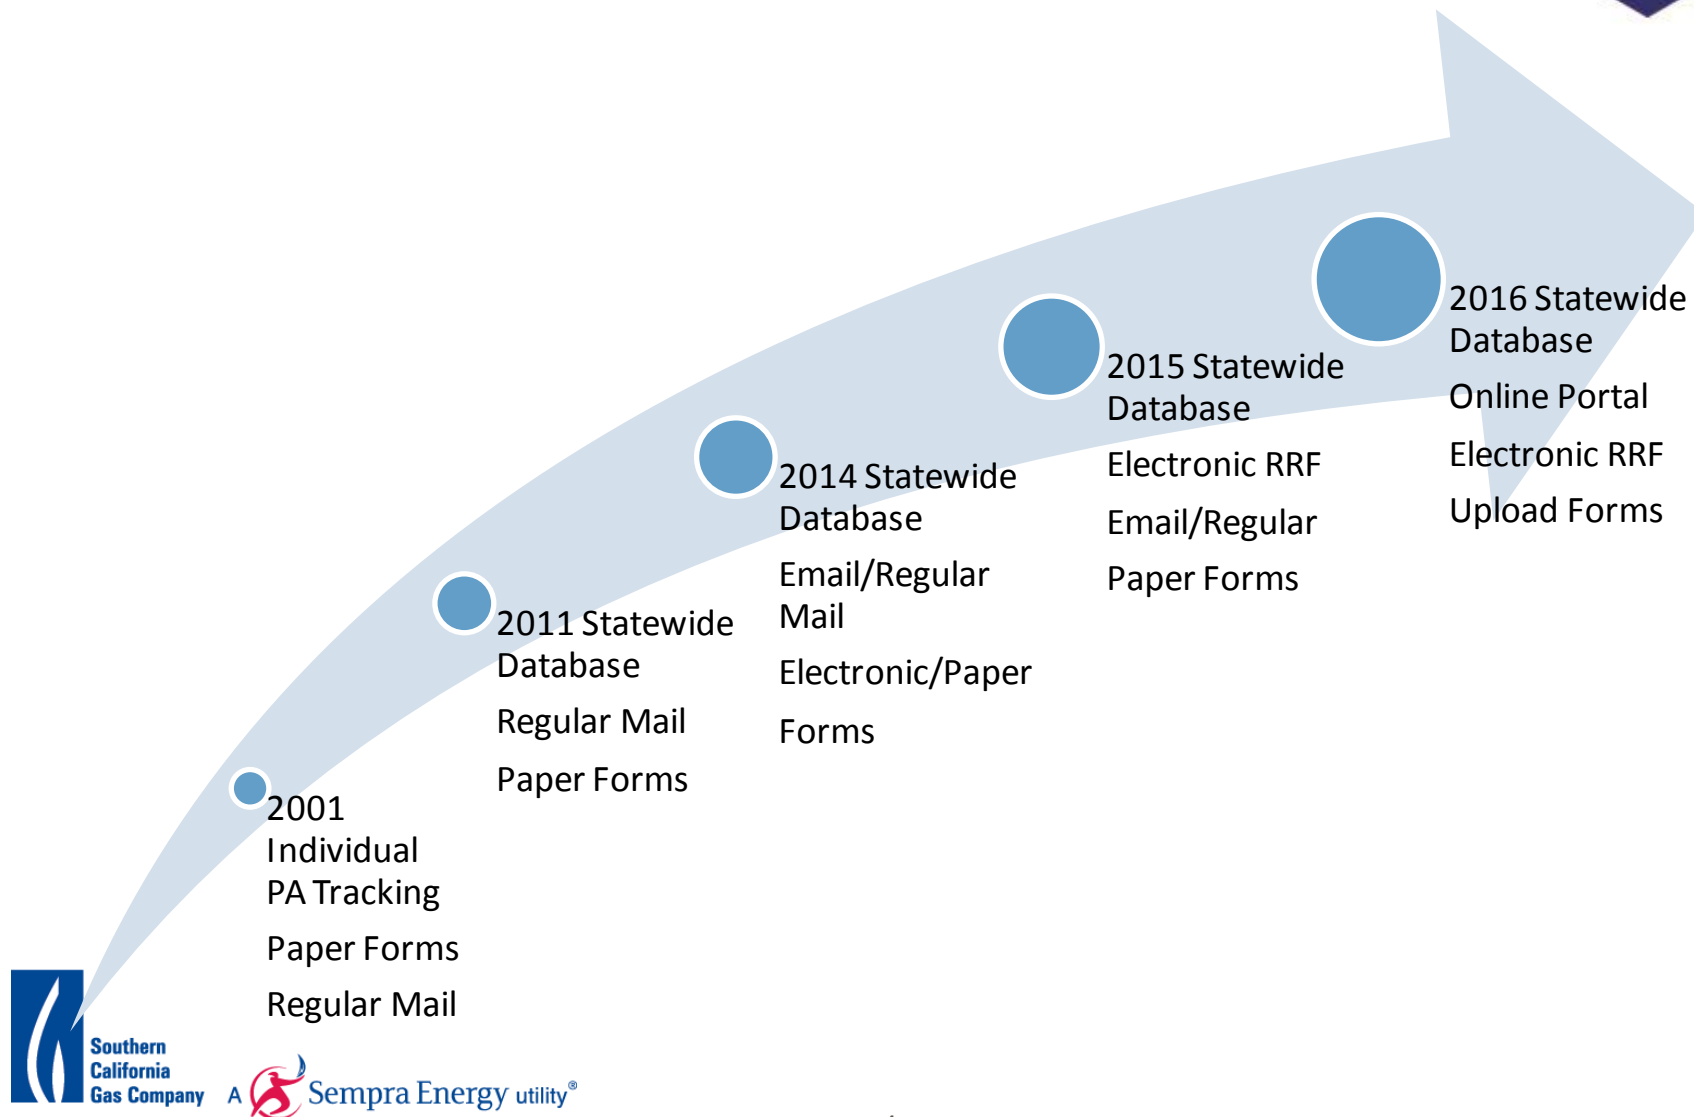

Southern  
California  
Gas Company

A Sempra Energy utility®

# Evolution of the Application Submission

# Renewable & Emerging Technologies

## Level 2 Submissions

# Thank you!

## Glad to be of Service!
